INCLUSIVE AND RESPONSIBLE DIGITALISATION IN TRAINING

Co-funded by
the European Union

WHO ARE WE?

In-DigiT (Inclusive and Responsible Digitalisation in Training) is an Erasmus+ project that promotes **more sustainable, inclusive, and socially responsible digital practices** in the training sector.

Bringing together six partners:

the project supports **trainers, pedagogical engineers, IT managers, and training centre staff** in adopting a digital transformation that respects environmental, social, and ethical principles.

OUR OBJECTIVES

In-DigiT helps training organisations evaluate and improve their digital practices through seven key qualities of responsible digitalisation: **Inclusive, Frugal, Democratic, Protective, Enabling, Fair, and Innovative.**

The project encourages the adoption of digital solutions that reduce environmental impact, promote inclusion, protect users, and strengthen social responsibility in education and training.

DISCOVER MORE!

OUR RESOURCES

The project provides practical tools to support responsible digitalisation, including:

- A **Booklet of 50 Good Practices** collected across Europe.
- A **Self-Assessment Tool** to evaluate digital practices and identify areas for improvement.
- A **10-module online course** on inclusive and responsible digitalisation in training.
- **Two digital escape games** designed to raise awareness through interactive learning.

All resources are freely available in **English, French, Italian, Greek, and Bulgarian.**
